Your Loan Balance (\$)

15000

Repair Estimate (\$)

### ANALYSIS RESULT

Current Market Value:	\$18,500
Equity Position:	\$3,500

5000

Est. Total Loss Threshold:

\$12,950

Repair cost is below the typical threshold. The vehicle is likely economically repairable.

#### LEGAL DISCLAIMER & METHODOLOGY

The information provided in this valuation report ("Report") is intended for general informational purposes only and does not constitute a professional appraisal, legal advice, or a binding offer of purchase or sale. Valuations are generated using proprietary algorithms that aggregate data from third-party sources including VinAudit, Auto.dev, CarsXe, and MarketCheck.

While we strive for accuracy, vehicle market values are subject to rapid change based on local demand, condition variances not captured in data, and economic fluctuations. The "Collision Decision Support" tool is an estimation based on standard industry thresholds (e.g., 70% total loss rule) and should not be used as the sole basis for financial or insurance decisions.

By using this Report, you acknowledge that the vehicle's actual cash value (ACV) may differ from these estimates. We recommend consulting with a certified appraiser or your insurance adjuster for final settlement figures.
